Some of the objectives of the Macroproject are to:

- Develop macro practice skills
- Define the agency’s mission and population served
- Identify and define the service community
- Understand the concept of a networking system that is developed to provide comprehensive services
- Examine a collaborative model developed with your agency, and how it works or does not work in providing a network system
- Develop leadership skills
- Develop an understanding of political reality in the agency and community
- Advocate for change and social justice
- Increase awareness of political boundaries and how they impact the agency, agency staff, and community
- Conduct a needs assessment and enhance service delivery in your agency

Macroprojects can fall in the following areas: Program Planning and Development, Community Networking, Organization Development, Advocacy, and/or Research

Complete a macroassessment and develop a project that considers the following questions. Use your project to develop or enhance some aspect of service delivery.

a) Who is responsible for the coordination of services?
b) How effective is the current care system?
c) Are there gaps in the system? If so, where are they?
d) What can be done to meet the needs of the population served?

1. PARAGRAPH PROPOSAL (DUE FEB. 17): In your 1 paragraph summary, please describe your project proposal. Based on your assessment, explain why you chose this project and how you will plan and implement the program.

2. PAGE SUMMARY (DUE APRIL 28): Write up to 2 pages summarizing your project. Describe your:

   Macroassessment (why was this needed, why has it not been done before)
   Proposed project
   Project planning (e.g. the steps involved, timeline)
   Project implementation
   Barriers to implementation, if any
   Evaluation of the project

Macroprojects are intended to be creative and challenging. Students have made quite meaningful and long-lasting contributions to their agencies with outstanding projects.

WORK HARD AND HAVE FUN!
